Testimonials

Hi, Antara team Thank you for attending to my wife Sangeeta Garg, aged 47 years yesterday at my residence. Great to see such a professionally managed home care system; the technician Sanjay Dixit turned out to be well-trained, compassionate, and very professional. I liked his demeanor and fearless attitude towards serving his patients/customers. Look forward to more services if required, in future. Kudos Team Antara! Best Wishes.

Mannish Garg

I have to say that Neha is a brilliant caregiver. She was instrumental in the fast recovery of the patient and convinced her all the time that she will be perfectly alright. She has the ultimate Sevabhav and treated the patient as her own family member. She would seek advice thoroughly from the doctors and would give them the perfect feedback and status whenever sought. She deserves all the encouragement and, if possible, rank promotions also. I sincerely wish that she studies further.
